Adobe® Photoshop® 2020: Part 1

Class Length: 1 Day

Overview

Part 1 focuses on some of the basic features of Photoshop so that students can navigate the environment and use Photoshop tools to work with photographic images. In addition, the orientation to Adobe® Bridge and organization of files in Bridge is covered. Although Photoshop is used by a variety of professionals, from photographers to designers to videographers, Photoshop Part 1 will focus mainly on the photography component. The illustration and animation techniques are covered in subsequent levels of Photoshop.

Prerequisite Comments

To ensure a students success in this course, students should have a basic comfort level with digital photography. For example, you have used a digital camera and have downloaded images to your computer or other storage device.

Target Audience

Professional or amateur photographers who want to use the robust features of Photoshop to enhance, modify, and organize their photographs, and anyone interested in working toward the Visual Communications with Adobe Photoshop CC certification.

Course Objectives

This course will prepare students to use the most common basic features of Adobe Photoshop CC. In this course, students will:
Identify the components and capabilities of Photoshop CC
Create basic images
Manage selections and layers
Modify and repair images, and manage color
Refine images by adjusting layers, using camera raw and applying advanced image refinement
Import, export, organize, and save files
