

Adobe® Photoshop® 2020: Part 2

Class Length: 1 Day

Overview

Adobe Photoshop CC is a leading graphic creation application, popular among graphic designers, illustrators, and photographers. Photoshop's numerous features work together to provide a comprehensive toolset for you, the design professional. This course delves into some of the more advanced image creation and editing techniques, and offers you hands-on activities that demonstrate how these techniques can be used in combination to create exciting visual effects. This course is a great component of your preparation for the Adobe Certified Expert (ACE) Photoshop CC exam and the Adobe Certified Associate (ACA) Visual Communication Using Adobe Photoshop exam.

Prerequisites

- Adobe Photoshop CC: Part 1

Prerequisite Comments

To ensure a student's success in this course, students should have experience with the following tasks:

Identifying the basic components of Adobe Bridge and the Photoshop workspace

Defining image size and resolution

Adding and modifying Photoshop layers

Using tools to select, crop, and move images

Working with image adjustment properties to correct and retouch photographic images

Opening and modifying an image in Adobe Camera Raw

Preparing images for print and web

To meet these prerequisites, students can take the following course:

Adobe Photoshop CC (2018): Part 1

To ensure a student's success in this course, students should have experience with the following tasks: Identifying the basic components of Adobe Bridge and the Photoshop workspace Defining image size and resolution Adding and modifying Photoshop layers Using tools to select, crop, and move images Working with image adjustment properties to correct and retouch photographic images Opening and modifying an image in Adobe Camera Raw Preparing images for print and web To meet these prerequisites, students can take the following course:

Photoshop CC 2019 - Part 1

Target Audience

Professional or amateur photographers who want to use the robust features of Photoshop to enhance, modify, and organize their photographs, and anyone interested in working toward the Visual Communication with Adobe Photoshop exam certification.

Course Objectives

This course will prepare students to use the most common basic features of Adobe Photoshop CC. In this course, students will:

Use brushes, gradients, and tool presets to create raster images

Apply vector paths, shape drawing tools, type, and type special effects

Apply advanced layer techniques with masks, filters, layers, and smart objects

Apply actions and batch processing to automate tasks

Edit video by using timelines, transitions, graphics, titles, and animation

Set project requirements by identifying the purpose, audience, copyright rules, and project management tasks

Course Outline

1 - Creating Raster Images

Draw with Brushes
Create Gradients
Apply Tool Presets

2 - Applying Vector Image Tools

Create Images with Vector Paths
Apply the Shape Drawing Tools
Work with Type
Apply Type Special Effects

3 - Applying Advanced Layer Techniques

Modify Images with Masks
Apply Special Effects by Using Filters
Apply Special Effects to Layers
Apply Smart Objects for Nondestructive Editing

4 - Automating Tasks

Create and Apply Actions
Batch Process Files with Photoshop and Adobe Bridge

5 - Editing Video

Edit Video
Add Graphics, Titles, and Animation to Video

6 - Setting Project Requirements

Identify Purpose, Audience, and Audience Needs
Adhere to Copyright Rules for Artwork, Graphics, and Graphics Use
Determine and Evaluate Project Management Tasks and Responsibilities
